

Revvo GT-IOX (Geotab) Gateway

Installation Guide

Step #1

Scan Revvo Vehicle QR Code to sync/register the Revvo GT IOX with the desired vehicle

- NOTE: Ensure VIN is entered
- If the vehicle has already been registered, select “Modify Asset” and register the Revvo GT-IOX
 - If there is a Revvo T3 installed, please unplug it before progressing to Step 2

Step #2

Connect the IOX harness to the GO device

- Make sure the harness is secured in place
- Use provided zip ties if needed

Step #3

Connect the Revvo IOX cable to the GO device

- Connect the harness to the Revvo GT IOX
- Identify the in-vehicle diagnostic connector
- Plug in GO device to vehicle's diagnostic connector, On Board Diagnostics (OBD) port, or adapter

Step #4

Turn ignition switch ON

- Revvo GT IOX will Power ON
- Wait for Revvo GT IOX to turn Orange
- Once the device LED turns Orange, the sync is complete
- Place the GO device and revvo GT IOX in desired location
