

## SENSOR GUIDE IN GEOTAB

**1**

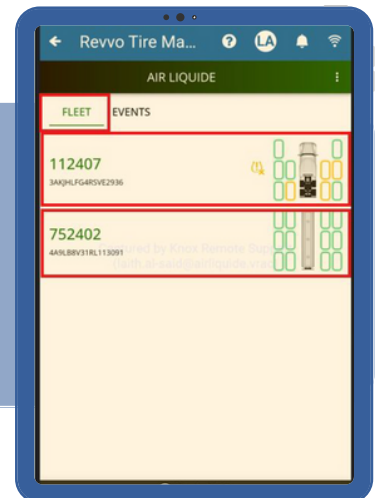

### LOG IN

Log into the Geotab Drive app. Scroll down to find "Revvo Tire Health".

**2**

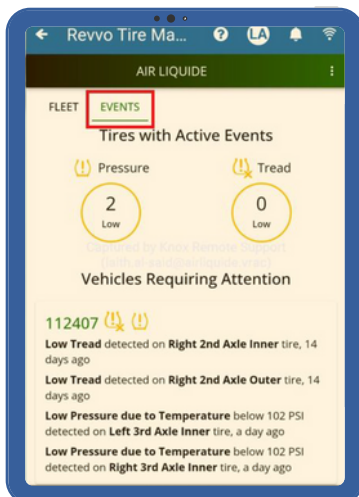

### TIRE INFO

Click on the "Revvo Tire Health" icon in the main dashboard. A screen will display the unit's tire info. You'll only see data if the tractor or trailer is equipped with Revvo's sensors.

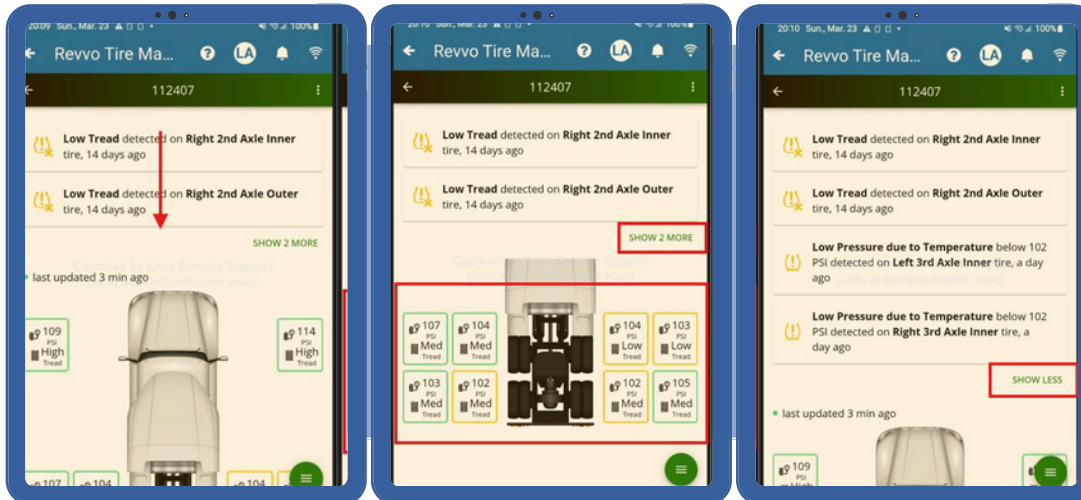

**3**

### EVENTS

If the driver clicks on "EVENTS" they will be presented with a screen that will list any current and some recent alerts indicating the tires' conditions.

## SENSOR GUIDE IN GEOTAB

**4**

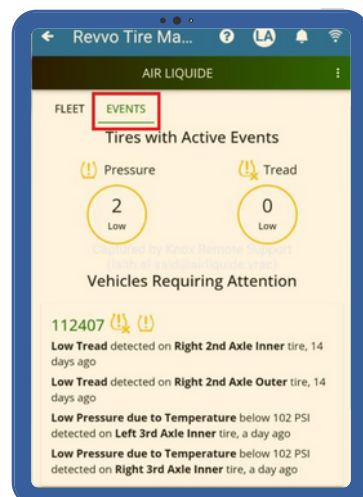

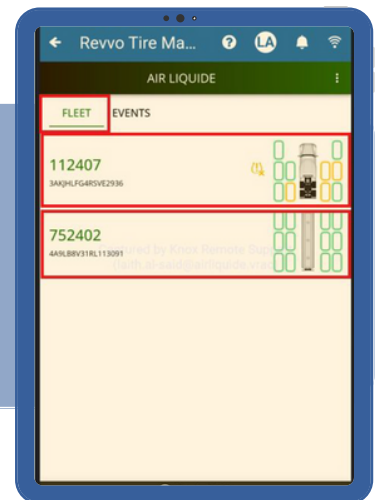

### MORE

Scroll down to view more data. Click on “SHOW 2 MORE”. You’ll see more tire status data.

**5**

### TRAILER INFO

If the driver is hooked to a trailer that is also equipped with Revvo’s sensor, the trailer info will be displayed also.

**6**

### ACTIONS

If the driver clicks on “ACTIONS”, specific tire data will be presented. The driver can modify the data by choosing one of two options to modify the data.
